

NGUYỄN THỊ BÌNH AN

(+84)032-9588-648 | ntban.it@gmail.com | Hanoi, Viet Nam | [linkedin](#) | [github](#)

Backend developer within 7+ years in the industry. Experience in building scalable systems for many concurrent users. Have been participating in almost all aspects of the software development lifecycle.

SKILLS

- Programming Languages: Java, Shell, PL/SQL
- Technology: Spring Framework, Docker, Git, Redis, AWS: S3, EC2, Aurora, CodeCommit
- Tools: Eclipse, IntelliJ IDEA, AWS CLI, VS Code, Maven, Redmine, Jira, Jenkins
- Others: Relational Database, Data Structure & Algorithms, HTML/CSS, API designing, testing.

EXPERIENCE

Data Engineer | LG CNS | Hanoi, Vietnam | January 2024 - now

- Wrote SQL queries, stored procedures to extract, transform and load (ETL) data from diverse sources to the datalake in AWS.

Backend developer | VTI Corporation | Hanoi, Vietnam | Sep 2020 - November 2023

- Created a documentation management web system which holding complex business flow by migrating from old project served users in a province to modern system on AWS for all provinces in Japan by Spring Framework.
- Participated in meetings to discuss the problem and give some technical suggests to help customer to point out the issues.
- Speed up some feature by tuning PostgreSQL query. Reviewed design & code, created unit & integration & stress testing. Ensured that 0 mission critical applications by fixed source code follow all SonarQ rules.
- Trained other members about basic knowledge about algorithms, database, Java & AWS.

Backend developer | DTS Corporation | Hanoi, Vietnam | Nov 2018 - Jul 2020

- Maintained an EJBs card membership system of a multi-sector engagement company & developed a VB.NET desktop tool for schedules management of a bus system in a province in Japan.
- Saved time for other colleagues by building an internal homepage by Spring MVC to simplify daily repeating report tasks.
- Reviewed code to improve logic requirements to avoid some inadvertent errors.

Junior developer | SVMC RnD Center | Hanoi, Vietnam | Jul 2016 - Oct 2018

- Joined coding and unit testing to deliver requirements per defined acceptance criteria in a Spring MVC website & a Spring Boot REST API service to access more potential developer partners.
- Effectively communicated within a multi-disciplined team across 3 locations: Vietnam, Korea & US.

EDUCATION

Posts and Telecommunications Institute of Technology (PTIT) | Hanoi, Vietnam | Sept 2012 - Jan 2017
Bachelor of Science in Software Engineering.

CERTIFICATIONS

- Technical Certification : AWS Certified Solutions Architect – Associate
- Language Certifications : English (830 TOEIC), Japanese (JLPT N2)
