

NGUYỄN THỊ BÌNH AN

(+84)032-9588-648 | ntban.it@gmail.com | Hanoi, Viet Nam | [linkedin](#) | [github](#)

Backend developer with 7 years of experience designing scalable systems and data pipelines using Java, Python, and AWS. Proven expertise in optimizing performance, mentoring teams, and delivering robust solutions across the software development lifecycle.

SKILLS

Programming Languages: Java, Python, PL/SQL

Frameworks & Technologies: Spring Framework, PySpark, AWS (S3, Athena, EMR, CloudWatch, Step Functions)

Tools: Git, Jira, IDE, CLI, MS Office

Other: API Design & Testing, Relational Databases (PostgreSQL), Data Structures & Algorithms, Basic HTML/CSS/JS

EXPERIENCE

Data Engineer | LG CNS Vietnam | January 2024 - Present

- Designed and implemented ETL data pipelines using Airflow, Python, and PL/SQL, processing 20000+ records weekly into an AWS data lake (S3, Athena, EMR).
- Led seminars on Git workflows, database, data structures and algorithms for 40+ members of company.
- Earned Programmer Coding Competency Certification in company-wide Data Structures & Algorithms contest.

Backend Developer | VTI Corporation Vietnam | September 2020 - November 2023

- Optimized PostgreSQL queries, reducing feature response times by 15% and improving user experience.
- Ensured 100% compliance with SonarQube standards, achieving zero critical application failures through rigorous code reviews and stress testing.
- Mentored 20+ team members on Java, SQL, AWS fundamentals, enhancing team productivity.

Backend Developer | DTS Corporation Vietnam | November 2018 - July 2020

- Maintained an EJB-based card membership system, refactoring code to reduce error rates by 12%.
- Developed a VB.NET desktop tool for bus schedule management, streamlining operations for a Japanese province.

Junior Developer | SVMC RnD Center Vietnam | July 2016 - October 2018

- Developed and tested features for a Spring MVC website and Spring Boot REST API, enabling integration with 1000+ developer partners.
- Conducted unit testing to meet acceptance criteria, ensuring high-quality deliverables.

EDUCATION

Posts and Telecommunications Institute of Technology (PTIT) | Hanoi, Vietnam | Sept 2012 - Jan 2017 Bachelor of Science in Software Engineering. GPA 3.5

OTHERS

- Technical Certifications: AWS Certified Solutions Architect Associate (2022), AWS Certified Developer Associate (2024)
- Language: Vietnamese (Native), English (Professional working proficiency), Japanese (Elementary proficiency)
